As regards the wages of the piecework compositors, they are, in spite of the sliding rates allowed and the reduction in the number o men, liable to increase consequent on the incre ed number of hours of work in the Press now (9 hours a week more than before), the increased quantity of work that may be received for execution and the reduced budget grant given; in which case, additional funds would be requi to meet the extra cost: Otherwise, the expend ture proposed by me (Col. 3) would suffice a all additional cost for the revision of the establishment of both the Presses and for the additional appointments proposed amounting to Rs. 10,080/- can be met from the savings effecte viz., Rs. 14,000/- (Col. 4).

As the grant this year for piecework is only Rs. 80,000/- and for overtime Rs. 5,000/-, a total of Rs. 85,000/- is available in the budget. From this amount, a sum of Rs. 74,804 (Col. 3) will be utilised for the wages of th men (Col. 3) and Rs. 10,080 for additional expenditure so that all the cost involved in th proposals submitted by me can be met from the sanctioned grants alone. But if there should be any additional expenditure to be incurred for reasons given above, it can be found by utilising the receipts from paying departments, only to the extent required.

as the allocation in the fixed scales of pay of the hour account compositors, Machine Minders, Asst. Machine Minders and Binders who were hitherto borne in the piecework establishment which may hereafter be designated as the working establishment of pres

As for the piecework establishment to be made permanent with the exception of the Piecework compositors, I beg to state that in the actual working out of the details, the scales of pay originally fixed as per annexure A have worked as a hardship on a great many men as their proposed pay was found to fall down considerably below thei average earnings, while a fairly large number got sudden jumps out of proportion to their averag earnings. As this glaring disparity is sure to give rise to much heart-burning and discontent in that it forces a man to accept a pay far below his average earning while at the same time compelling him to work two extra hours a day, I have fixed suitable scales of pay as near as possible to the average earnings of the men during the pas three years and where even this scale falls considerably short of the average earnings, I have proposed suitable absorbable personal allowances, so that the men may have at least the satisfaction of drawing a pay nearly equal to the average earnings in view of the two extra hours a day demanded of them. The average earnings earned, the scales of pay fixed and the absorbable persona allowances proposed are shown in the list attached to the proposition statements.

The cost on this account will amount to Rs. 49,332/- for substantive pay and Rs. 1140/- for absorbable personal allowances or to a total sum

sum of Rs. 50,472/- per annum, resulting in an ultimate savings of Rs. 1,224/- as shown in the list referred to. This expenditure can be met from the provision of Rs. 80,000/- made under the piece work in the current year's budget and will represent the amount that may have to be provided for this item of expenditure in the next and succeeding years' budgets.

2. Government Order No. G. 1532-3 P & S 7-30-3 dated the 6th August 1930 sanctioning among other things the drafting into the permanent establishment of a certain number of hour account compositors, machine men and piece work binders in the Branch Press at Mysore.

3. Letter No. 615 dated the 12th August 1930 from the Superintendent, Government Printing, Bangalore, submitting proposals for absorbing in the permanent establishment a certain number of hour account compositors and piece-work machine men and binders of the Central Press, Bangalore.
